Your website is SO easy to use! I've had a great time setting it up, and I can't tell you the **hours you saved me**, as I was about to embark on redoing our other website. Using homeschool-life.com was a life-saver for me and my kids. Thank you for offering this service. It will make a big difference to our membership.

- - Homeschool Group Leader, South Carolina – 175 families

"Thank you for all you have done for our group's site and the entire homeschool community. It is amazing how homeschool-life has **saved so much time for group leaders** and **enabled information to be available much quicker**. You have been a blessing."

- - Homeschool Group Leader, Wisconsin – 200 families

"**How did we ever live without this?** Just five months ago, our homeschool group was struggling to have a web presence. We also needed a way to keep our membership updated and to do a better job of building community. Over a chance conversation at Thanksgiving, I heard about Homeschool-Life, and decided to look into it. Impressed, I took it to our Board of Directors, and soon we were signed up. What has happened since is amazing! People are finding us online and joining our group. Members are telling homeschooling friends things like, 'you should join us.... we have this new website.....' We really have been **transformed as a group** because of Homeschool- Life. By the way, setting up the website is so easy that a computer rookie (like me) can do it. Thanks Homeschool-Life!! We LOVE our website!!"

Volunteers (19) - Posted 3/21/12

BCHE Hi

As hard as it is to get people to do what they need to, we have found that we operate best on a system that follows what I call "market forces". Much in the same way as the supply and demand model goes, if no one signs up to do field trips...no field trips, unless someone asks if they can post/lead one.

We do all our renewal online now with HSL and it's SO much easier. We can Park people who don't renew and then they can't participate in what we do. It's their responsibility to keep up not ours to chase them down.

I know this model won't work for everyone, and we do have almost 200 families, but we started doing this with about 120 families and we've grown tremendously. We only charge \$25 per year, and that used to be reduced based upon "Service Tasks" like yours...but it was too hard to keep up with. We just keep reinforcing that if they want it done they need to step up because leadership has a lot of admin work going on and can't do everything. It has been working so far so good.

We have a mandatory annual meeting at the end of the school year. At that meeting we talk about the main activities/plans coming up in the next school year. Then we have two stations for membership renewal:

- * Pay for the next year -- either \$50 if not volunteering (or didn't do their volunteer jobs from the current year) or \$25 if they are volunteering for two jobs in the next year.
- * If they are volunteering, they go to the second station which has large poster boards with the volunteer jobs listed. They can put their name next to the jobs they wish to do. There are some jobs that the same volunteer does year after year (such as website person, enrichment class coordinator, book sale coordinator, etc.) whose names are pre-filled.

We have considered doing all of this via the website, but have found that people just are not responding to the emails and we end up having a person with something like a part-time job over the summer to track people down. That is why we've made the meeting mandatory to get it all done at once. (If someone knows they are going to be on vacation or have a legitimate reason for not attending, they have to pay before the annual meeting.) If they don't show up at the meeting and haven't made arrangements to pay in advance, then they have to wait until the fall to renew again; which means they'll miss out on some of the summer activities. Feeling we have to be firm about this as we've doubled from 45 to 95 families in the past few years and it's too much work for our membership person to handle if it trickles in.

I'm looking forward to hearing from other groups on this topic. Maybe we can find an even better way.

I really appreciate all of you who shared! I have heard this question for years and this is the first time that I have seen someone respond.

[Beth Moore at the Airport](#) - Posted 4/19/07

For those of you who don't know who Beth Moore is, she is an in depth Bible teacher, writer of Bible studies, very easy to listen to, funny, and is a married mother of two daughters. She is a member of First Baptist in Houston, and has a very close walk with her Savior. Many of her experiences will make a person cry, and this one isn't any different, but please take time to read this story is so touching, yet has such a profound lesson for all of us. Enjoy!

Just a reminder to use the Cool Cash Codes at Fry's... Also, (FYI) ...

After swiping your "code" and your Fry's card, all of your receipts should say "COOL CASH Supporter" on them. If they do not, you will need to swipe it again. A few of my receipts did not "connect" with the code.

FAQS

Search By Keyword:
(separate multiples with a comma)

Q: Why Homeschool-Life.com?

A: We chose homeschool-life.com because it was an affordable way for our homeschooling group to have a site. A web site, we felt, was an excellent way to share our group information and stay organized. Most families access the internet and had email so it was a logical fit. For the families that did not have the internet, they use the Public Library FREE internet access and signed up for a FREE Yahoo email address. Our web site allows us to easily schedule all our group activities. We used to spend countless hours organizing our information, planning field trips, preparing newsletters and mailing and answering questions. Now, with Homeschool-Life.com, scheduling events and keeping our families informed is a breeze. We would encourage all our families to take advantage of the family web pages. The kids have a great time learning how to design web pages!

Q: Where is the State form to fill out to homeschool our children?

A: In Wisconsin, we must file form PL-1206 with the Department of Public Instruction, not asking for permission informing them that we are instructing our children at home. This form attests that we are not circumventing school attendance laws and are providing at least 875 hours of instruction per year covering at least reading, language arts, math, social studies, science and health. To request the form, call 608-266-5761 or write to Wisconsin Department of Public Instruction Bureau for School Management Services and Federal Aids 12 Webster St. P.O.Box 7841 Madison, WI 53707-7841
For more information and to download a printable version click on [Form PL-1206](#)

Q: When is fall soccer signup?

A: Fall soccer signup is the 2nd week of March held at the Waupun Middle School cafeteria. Please call Curt V.
