

# What Our Members Are Saying . . . . .

*"Attending parent's meetings and field trips gives me inspiration and encouragement, which is needed throughout the school year."*

*"I have learned so many things from other HAHA members that I never would have learned before. In addition, I and my son have made new BFF's. We are so close now that we are even taking a trip together in the fall. It never would have happened without HAHA. My son's self-esteem has definitely improved as a direct result of our membership. WE LOVE YOU GUYS!"*

*"HAHA has helped provide socialization for me and my child. We like all of the field trips that are not easily planned individually. I love HAHA and the people who make it work!"*

*"HAHA has been a tremendous encouragement in our homeschool journey. We feel like we are a part of a huge group of people facing the same joys and challenges we are. It has also helped my kids to feel like they are "normal" because they are surrounded by so many other children that are also homeschooled. The social aspect of the group has been the greatest benefit to us."*
