

ABOUT CALVARY CHRISTIAN SCHOOL

CALVARY CHRISTIAN SCHOOL

Calvary Christian School is a ministry of Calvary Bible Church. Our programs are designed to supplement and support the Christian family's efforts in the education of their children. God's Word, the Bible, is the foundational textbook and guide for life and for education. Calvary Christian School offers two programs for encouragement and support of local homeschooling families.

Administration Program: Students enrolled in the Administration program (K – Grade 12) are considered part of Calvary Christian School as private school students. Calvary Christian School is recognized by the State of New York as providing “substantially equivalent” education. CCS education provides solid academics, sound spiritual principles, and special attention to family and individual needs. The daily educational program is done at home with the parents overseeing the process. Attendance, tests, papers, etc. are submitted to CCS in order to monitor progress. Report cards are issued, credits earned and records are kept by CCS. Administration students are required to attend Activity Day on Thursdays and to take yearly standardized tests. If you are interested in the Administrative Program, please call and speak with one of the administrative staff for more information.

Activity Day Program: Homeschooled students meet weekly on Thursdays and participate with other homeschooled students in classes and activities that supplement their home educational endeavors. Parents participate by serving in a variety of ways while enjoying fellowship with other homeschooling families.

Whether you are new to homeschooling or have been homeschooling for years, CCS strives to offer you support and fellowship as well as information and tools to assist you and your family. We are glad you stopped by and would love to have you join us!

Be sure to click on the Participation Options page for more details and the fee calculation.
