

SPEECH & DEBATE

Speech is for students who want to learn to think clearly and express themselves effectively before an audience. Students will be provided opportunities to increase their fluency as a speaker and develop their self-confidence. We will spend the first half of the year analyzing historical speeches given throughout history. Students will be expected to prepare and present different types of speeches. In the second half of the year we will focus on debate as a decision-making tool and debate history. Students will be expected to prepare argumentations for class.
