HHE Spring 27 Class Details

Class Details by

Pre-K

Tumble Bumble

Teacher: Jess Chew **Material fee:** $15

Are you ready to move and groove, rumble and tumble? This active class will teach the students basic tumbling and dance skills such as rolls, stretches, balancing, animal walks, movement games and fun action songs! Please make sure students wear socks or ballet shoes to class! Students will also get to perform an action song at performance night

Books and Sensory Bins

Teacher: Kristina Velazquez **Material fee:** $15

We will read a picture book each week followed by sensory bins or activities. I may want to do more outside activities when the weather warms up.

Growing Up Wild

Teacher: Boone **Material fee:** $15

Growing up wild is an early education, interactive curriculum that builds on children's sense of wonder and curiosity about nature and wildlife. There will be some outdoor activities when the weather is appropriate.

K–3rd Grade

Spy Academy

Teacher: Chew **Material fee:** $30

cue James Bond music Does your child possess what it takes to be the next greatest spy? I guess if they succeed, you may never know. ;) When they enter the Spy Academy they will receive a silly alias and disguise! They will learn about the spies and spy assistants who have come before us (in a k-3 friendly way) such as Harriet Tubman and Julia Child as well as historic spy gear! They will even receive some spy gear themselves. Our brilliant spy students will get to use logic, alphabet codes and early math skills to decode messages! They will also partake in fun physical challenges that come along with being a spy such as yarn laser courses! Join today! *young spies will enjoy the class most if they're confident in knowing and writing their letters and numbers. Easy reading, spelling and basic math skills not required but will be used in the class.

Busy Builders

Teacher: Whelan **Material fee:** $25

Get ready to build, create, and imagine! Each week, students will explore a different set of building materials, from LEGO bricks and cardboard to craft sticks, nature items, recycled materials, and more. Students can choose from fun weekly building challenges or create something completely their own. This hands-on class encourages creativity, problem-solving, and imagination while giving kids plenty of freedom to design, test, and build.

Creating like Famous Artists

Teacher: Landreth **Material fee:** $20

YOU get to create just like a famous artist in our class!! We will explore different art mediums (watercolor, cut paper collages, crayons, tape, paint, etc.) as we learn about some of the world's most famous artists! We will explore works by Picasso, Matisse, O'Keeffe, and Mondrian. As we create throughout the semester, we will save our pieces to display at presentation night.

Cooking Around The Countries 2

Teacher: Schautschick **Material fee:** $30–35

In cooking around the countries two, we will visit a country each week and cook or bake a food item that is authentic to that country. Children will learn how to follow a recipe and correctly measure and mix ingredients. They will also get to enjoy eating their creations.

Stories & Crafts with Cynthia Rylant Books

Teacher: Browning **Material fee:** $20

Students will be listening to books by Cynthia Rylant, discussing story elements, and engaging in art activities related to the book of the day. Cynthia Rylant is an accomplished, award-winning American children's author whose writing is deeply rooted in her rustic Appalachian upbringing. She has penned more than 100 books - celebrated for her nostalgic depiction of family and country life. No reading will be required of the children. Books will be carefully chosen to be appropriate for this age group and Christian values. Art activities will be linked to the books read aloud and discussed. Students will be using a variety of materials, including glue sticks, markers, pencils, crayons, and scissors.

K–3rd Grade (Cont)

More Earth Explorers

Teacher: Rachel Brown **Material fee:** $20

As we move into the second semester of our school year, we will continue in our dive into the wonders of our planet. There is so much more to cover as we continue in this hands-on science adventure! Subjects covered this spring will include soil layers, meeting earthworms, and learning about types of rocks, rivers, volcanos, and discover how trees and flowers grow. From the tiny seeds in the dirt to the peaks of mighty mountains, young explorers will learn how every part of nature works together.

3rd–6th Grade

Trick of the Eye: Op Art & Illusion Sketching

Teacher: Shaw **Material fee:** $10

In this 10-week sketching class, students will learn the secrets behind Op Art (Optical Art), a style of art that plays tricks on your eyes. No drawing experience is needed. If your student can draw a line, they can make art that wows! Each week, students follow a step-by-step guide to make a new piece of art, such as a 3-D basket weave, a swirling "drain," zigzag stairs, a bubbly honeycomb, and a checkerboard heart that bulges off the page. Along the way, they'll build real art skills: using a ruler, shading from light to dark, drawing smooth curves, choosing colors on purpose, and making flat shapes look 3-D. Students will finish the class with 10 completed artworks to be displayed on presentation night, where families can see their work on display.

Bucket & Boom Percussion

Teacher: Gaynor **Material fee:** $20

Get ready to catch the beat! In this hands-on music class, students will build drumming skills using bucket drums, learn to read basic rhythms, and play by ear through rhythmic chants. We'll explore the musical alphabet, learn chords, and work together to play songs using colorful Boomwhackers. Along the way, students will take on rhythm games and challenges, create their own music, and build confidence playing as a group. We'll finish the semester with a glow-in-the-dark performance under black lights at Presentation Night! No music experience required. At-home practice: Students are encouraged to practice on their buckets with provided tracks for 5–10 minutes, three times a week.

Crochet 2.0

Teacher: Landreth **Material fee:** $10

Come crochet with us! We will use skills you learned in our last crochet class, build on them as we learn new skills, and then complete a project together! You will learn new stitches such as the double crochet, half double crochet, single crochet increase, and single crochet decrease. Come prepared to have fun, create a cute stuffy, and then display everything at presentation night!

3rd–6th Grade (Cont)

Edible Art Challenge

Teacher: Fernandez **Material fee:** $30

Think like an artist, create like a chef. Each week students will be given an art challenge that combines design, technique, presentation and problem solving as they transform everyday ingredients into edible masterpieces.

Unscripted: Drama and Improv Games (3-6)

Teacher: Neumann **Material fee:** $10

Get ready to laugh, explore, perform, and think on your feet! UNSCRIPTED is a high-energy drama class filled with games, fun challenges, character development, storytelling, and spontaneous scenes where students never know what might happen next! Through exciting improvisation and drama games, students will step into different roles, explore new ideas, work as a team, and bring unexpected stories to life. Along the way, they'll develop valuable skills such as public speaking, active listening, quick thinking, teamwork, problem-solving, and more! No scripts to memorize, no pressure to be perfect, and no previous drama experience needed! Come ready to play, create, laugh, and let your imagination take center stage!

Melody Makers: Songs of Faith

Teacher: Neumann **Material fee:** $20

Come join us for an exciting musical adventure where every song is an opportunity to praise the Lord! Students will experience the joy of singing together as they explore a variety of contemporary worship songs, Christian radio favorites, and beloved hymns. Along the way, they'll develop basic vocal skills such as posture, breathing techniques, pitch matching, and music reading fluency. Whether your student is a beginner or has been singing for years, all levels are welcome! This is a supportive, no-pressure environment where students can learn, participate, and enjoy singing together. Above all, students will use the voices God has given them to worship Him and make a joyful noise to the Lord!

Plot & Pixels

Teacher: Lee **Material fee:** $12

This course will introduce core literary terms and analytical skills through the medium of short films. Students will examine how visual storytelling utilizes traditional literary devices such as theme, character development, and symbolism alongside cinematic elements like music, lighting, and mood. By treating short films as visual texts, students will learn to decode subtext and analyze artistic choices.

Paint by Numbers

Teacher: White **Material fee:** $30

This will be a purchased canvas set with paints that are numbered that match the numbers on the canvas. It will be a little detailed and intricate to paint, but should be a nice painting in the end to display. Grades 3-6 will be an easier child level. It still may take a couple of weeks to complete. Coming to class with the mindset that this is a slower, focused pace may help.

3rd–6th Grade (Cont)

Earth Explorers

Teacher: Brown **Material fee:** $20

As we move into the second semester of our school year, we will dive into the wonders of our planet. There is so much to cover as we jump into this hands-on science adventure! Subjects covered this spring will include soil layers, meeting earthworms, and learning about types of rocks rivers, volcanos, and discover how trees and flowers grow. From the tiny seeds in the dirt to the peaks of mighty mountains, young explorers will learn how every part of nature works together.

6th–12th Grade

The Wool Workshop

Teacher: Chew **Material fee:** $40

In this class we will get to explore different ways to work with high quality wool such as wool painting, needle felting and wet felting! Students will be able to create one of a kind works of art along with learning fun and useful skills! It should be noted that the needle being used for needle felting is sharp and needs to be handled safely.

Comic Book Creators

Teacher: Whelan **Material fee:** $25

Students will learn how comic books are created from start to finish. Each week, they'll watch a short lesson from a comic artist, review the key skills together, and put those skills into practice through hands-on drawing and storytelling activities. Students will explore character design, expressions, story writing, page layouts, lettering, backgrounds, and more. By the end of the 10-week class, each student will create an original comic book of their own. Some light work outside of class may be needed as students develop and complete their final comic.

Intro to Personal Finance

Teacher: Boone **Material fee:** $30

Interactive introduction to personal finance topics such as budgeting, 50-30-20 rule, saving plans, understanding credit and debt, reading a paycheck and understanding taxes. The class will work through a budget simulation applicable to teens and learn basic money skills that have real life applicability.

PE & Amazing Athletes

Teacher: Gaynor **Material fee:** $20

Get moving, build skills, and take on team challenges! In this active PE class, students will sharpen their throwing, catching, aiming, running, dodging, and kicking skills through competitive challenges and high-energy group games that emphasize teamwork and strategy. We'll also discover inspiring athletes throughout history who overcame obstacles through perseverance, determination, and strong character. Each week, we'll connect their stories with biblical principles about working hard, giving our best, and encouraging others. Come ready to compete, work together, and be challenged both physically and personally!

6th–12th Grade (cont)

Cup to Table: Student Cafe

Teacher: Fernandez **Material fee:** $50

Students will learn to create café-style coffee drinks, homemade syrups, refreshers, teas, lemonades, and Italian sodas. Students will gain hands-on experience in beverage preparation, creativity, teamwork, and public speaking. During lunch, Student Café will sell student-created drinks, with all proceeds donated to a local organization.

Shark Tank

Teacher: Fernandez **Material fee:** $20

In this hands-on entrepreneurship course, students will develop leadership, creativity, and problem-solving skills while learning marketing, finance, and business planning. Students will turn their ideas into business concepts through interactive activities and collaborative projects. Ending in an exciting Shark Tank Panel, where students pitch their ideas to a panel of judges!

Unscripted: Drama & Improv Games (6-12)

Teacher: Neumann **Material fee:** $10

Get ready to laugh, explore, perform, and think on your feet! UNSCRIPTED is a high-energy drama class filled with games, fun challenges, character development, storytelling, and spontaneous scenes where students never know what might happen next! Through exciting improvisation and drama games, students will step into different roles, explore new ideas, work as a team, and bring unexpected stories to life. Along the way, they'll develop valuable skills such as public speaking, active listening, quick thinking, teamwork, problem-solving, and more! No scripts to memorize, no pressure to be perfect, and no previous drama experience needed! Come ready to play, create, laugh, and let your imagination take center stage!

Root & Riot (Vocabulary)

Teacher: Lee **Material fee:** $20

15-20 words a week. Zero boring worksheets. This class will trade traditional flashcards for active fun learning through games. Each week you will take a new set of words home to review and get ready for party-style games and friendly competition at co- op. Let's lock them into your long-term memory while having fun. Come ready to play and level up your vocabulary!

Paint By Numbers

Teacher: White **Material fee:** $30

This will be a purchased canvas set with paints that are numbered that match the numbers on the canvas. They will be detailed and intricate to paint, but should be a nice painting in the end to display. Grades 6-12 will be adult level paintings. Each painting will take a few weeks to complete. Coming to class with the mindset that this is a slow, focused pace may help.

6th–12th Grade (cont)

Vacation Planning

Teacher: White & Peters **Material fee:** $15

This class will have a new planning and researching task each week on how to plan and budget for a vacation. We will compare options and determine which best fits the needs of the family and budget. Process will include coming up with a destination, researching travel options (flight/car/train), lodging costs and options, food choices, what to pack, activities to do there or along the way, etc. This class will need a device that can be used to go to websites and search prices, etc. It is possible they may need to finish the topic of the week at home if we don't finish in class because we would be moving on to the next step the following week. All information found will be written down on printed worksheets that will be placed in a folder. We may do a presentation on the last day to the class, either visual or verbal. The majority of class will be spent researching on their device after initial information and objectives are given. I will be providing an example to go by and guiding through the general process.

*World History

Teacher: Yokeley **Material fee:** $10 **Grades:** 8th–12th

This is a continuation of World History.
Taking 1st Semester World History is reqiured

HS Biology Lab

Teacher: Lee **Material fee:** $50 **Grades:** 9th–12th

This lab course will explore core living systems through direct experimentation, microscopy, and scientific inquiry. It will be a great hands-on review in the lab.
