	Each week we will learn an Aesop fable and make a page for our notebook/lapbook		
<b>Sonya Kerr</b>	<b>Worldly Wise Vocabulary</b>	<b>13+</b>	
	Having a varied, sophisticated and considered vocabulary will help distinguish students from their peers. We will work together on first half of the Worldly Wise Vocabulary Book 9, have vocabulary games and application challenges in class and at home in order to apply the newly acquired words in their speech, writing, etc. - Goal is to develop a love for vocabulary and to learn how to be concise and succinct in their oral and written communication. Ultimately, I see it as training ground to learn to speak with whimsy and win the world to Christ! Vocabulary Student Workbook and possible teacher answer book needed. Homework outside class.		
<b>Angela Ward</b>	<b>Career Exploration</b>	<b>14+</b>	
	Explore post-high school careers, learn to interview and write a resume, discover your personal mission statement, and become financially literate in this hands-on class of exploration. There will be homework outside of class (reading, taking inventories, etc.). Downloadable student workbook need (app \$15)		
<b>Alida Sanders</b>	<b>Fashion Design</b>	<b>9+</b>	
	This class will have lots of sketching, design, coloring and fabric swatches. Each week will have a design inspiration challenge (Paris, Disney World, Prom, etc.). We will also spend a few classes using the same concepts learning Costume Design which is used in plays and movies to set the scene and mood (for example Shakespeare plays and the Narnia movies). They can use a silhouette template or draw their own.		
<b>Angela Daniel</b>	<b>Dominoes</b>	<b>9 - 12</b>	
	Students will learn many exciting domino setups, as well as learning a little physics. Some setups which will be taught are sonimod, walls, 2D pyramids, flower lines, 3D pyramids, towers, cubes, etc. Dominoes needed (price varies depending on dominoes bought)		
<b>Lisa Luna</b>	<b>Body Basics</b>	<b>Prek / Kinder</b>	
	In this class we will investigate the parts of the human body. Each week our goal will be to understand the chosen body part and its God created function. Through a notebook, experiments and games, students should gain a basic understanding of the different parts and how they work together as a whole. And we will have FUN too!!		
<b>Ramona Jett</b>	<b>Rocket Science</b>	<b>6 - 9 and 9 - 12</b>	
	Science enrichment class with hands-on engineering activities. We'll explore the science behind how things work with weekly small-group challenges.
