**Home School Physical Education
2022 Fall Semester Classes
Information Sheet
36th year (Since 1987)**

Registration for the 2022 fall semester home school physical education program is now open. Physical education is a sometimes-overlooked subject in the homeschool family's curriculum. The benefits of physical education classes promote well-rounded children as they begin to incorporate the learning, social skills, and spiritual values that you are teaching them at home. Physical education is not just about sports or games but learning how to develop skills that grow and develop into other abilities, such as learning to work as a team, challenging oneself to improve, or developing leadership skills.

One of the most common comments I hear from families is that physical education is the highlight of their week. Parents also tell me their younger children ask, "Is today P.E. day?" It has always been my desire to make Jesus Christ the center of my life in everything I do. I seek to make Jesus the center of the physical education classes I teach as well, failing sometimes, but God is still faithful. I believe therefore so many families have been blessed by the classes over the years, because God is glorified.

Important Dates

The fall semester classes will **begin Tuesday, September 6 and Thursday, September 8.** The semester will conclude Tuesday, December 13 and Thursday, December 15. There will be no classes the week of November 22-24 for the Thanksgiving Day holiday. Below is a list of days, class times, and fees. The 2022 Spring Semester will begin Tuesday and Thursday, January 3 and 5. Each class lasts one hour and meets once a week.

Location and Facility

We are located at 824 Union Road, near I-55 and Bayless Avenue in South County – just minutes from the Metro East, Jefferson County, St. Louis City, and West County. The Salvation Army is blessed with a wonderful facility - a beautiful gymnasium (climate controlled) and an athletic field.

Classes

A note to families: The program began in 1987, giving families the opportunity for their kids to participate in a gym class and meet other home school families. Classes are on Tuesdays or Thursdays, which allows flexibility for families. Classes are divided into specific age groups, so students can get to know others their age. The classes are a great value, less than \$6 per class.

Benefits of these classes are an opportunity for kids to develop friendships and practice good sportsmanship, while still getting physical exercise, developing athletic skills, having fun, and expending energy, all at the same time. And families get a break from the rigors of the home-schooling week.
