

FBCA & Family Life Center Rules

It is a joy to allow so many ministries and programs to use the First Kids floor to gather, grow and go all for the glory of God! The following information will help us to be good stewards of what God has graciously given to us to minister to so many.

Dry Walls

Please do **NOT** use push pins, tacks, staples, nails, or any kind of permanent adhesive on the walls/cabinets/ceilings.

Movable Cloth Walls

Please do not use pins or tacks to place items on the movable walls. The movable walls are **ONLY** to be moved by trained Family Life staff with the proper equipment. Please do not attempt to move the walls yourself which could damage the walls/and or floors and possibly hurt someone.

Carpet

God has blessed the First Kids floor with brand new carpet squares! To help us take care of the new carpet, we ask that no one bring colored liquid into the classroom. Water is fine. Adult leaders may drink coffee or tea, as long as their cups have lids.

Doors

For everyone's safety, please **always** leave the door's glass window uncovered. Always leave the door locked and use the magnet at the top to keep the locked door from latching.

Tables

If you need to move tables, please make sure 2 adults lift them. Please do not scoot tables on the tile floor which will scuff the tiles. If you ever need to move tables or chairs, please put them back where you found them when your class is finished.

Media Carts

If you use a TV/Media cart, please make sure it is returned to the proper room (listed on the cart).

Dry Erase/Chalk Board

We just replaced all the chalkboards and most of the dilapidated dry erase boards. To help keep these dry erase boards in good shape we ask that the board always be erased at the end of the class.

Chairs, Lights, Blinds and Garbage

If you are the last class in your room, please have your students stack their chairs while they are **a few inches away from the walls** and then gently slide them toward the wall. This will prevent the chair legs from scuffing the drywall. If your room has folding chairs, please stack them up against the side of the plastic or metal cabinet in the room (not the wall). Please close the window blinds, turn off all the lights and set your garbage can in the hall to be emptied.

NO NUTS

We have a "no nuts" policy for the First Kids floor. This includes peanut butter, almond butter, candy with nuts, etc.

Please leave your room/First Kids floor in better condition than you found it. If something is ever missing, damaged, or not working properly, please let Becky know right away so she can inform the church. Thanks for being such good stewards of what belongs to God.

Pastor Jeff
