A07 Acrylic Art Painting 1

Crystal Diens, Chelsea Pieske

This class will focus on using acrylic paint on card stock paper. We will be discussing a famous artist each week, going over who the artist is and what style of painting. The student will then paint that style of art in the student's own interpretations, not copying the painting just the style. We will make sure to label and name each art work, so we know which famous artist the student painted. It is going to be fun learning about other artists and what style they painted. The books for this art class are the 13 artists children should know and the 13 paintings children should know. Each student will get a set of nice paint brushes of different sizes, they will get a binder to put the finished paintings in. I plan on buying the acrylic paint in bulk, paper plates, water cups and card stock, so unfortunately no paint to take home at the end. The students will have a lovely portfolio of amazing art and knowledge of famous artists.

B05 Stop Motion Module 1

Simina Tarcau

Welcome to our exciting Stop Motion Animation Class for kids! In this fun and creative program, children will dive into the magical world of animation by bringing their own stories to life, one frame at a time. Through hands-on projects, they will learn the basics of stop motion techniques - including character design, storyboarding, and set creation. Using everyday materials like clay, paper, and toys, kids will explore how to animate objects, create fluid motion, and add sound effects and voices to their animated scenes. By the end of the course, each child will have their very own short stop motion film to share with family and friends.

This class is perfect for budding animators who love to craft, imagine, and create! No prior experience is necessary - just bring your creativity and enthusiasm! (Administrative note: Please sign your child up for this class only if they are able to focus and follow directions carefully.)
