

Science Concepts

Class Description

Appropriate Grade Levels: 4-8

Prerequisites: None

Minimum # of Students: 6

Maximum # of Students: 15

Instructor: April Rist

Class Tuition: \$150

Supply Fee: \$30

Text: none

Required Materials/Supplies:

1 inch 3 ring binder

Looseleaf paper

Plastic folder with holes to go in binder

colored pencils

pencils & erasers

tabbed dividers

Description:

Welcome to Science Concepts. In this class we will complete a lab almost every week. Students will spend approximately 6 weeks each learning about chemistry, biology, physics, and ecology. They will also learn about various scientists who studied in those respective fields. Students will also begin to learn the scientific method. They will learn to work through the steps of the scientific method and complete lab reports. This class will be based on the book series "The Kitchen Pantry Scientist."
