Description:

This middle school Spanish course is designed to help students build confidence in speaking and understanding Spanish through practical, everyday communication. Students will learn to communicate in Spanish through conversation, repetition, and real-life situations.

A major focus of this course is mastering approximately 500 of the most commonly used Spanish words. These high-frequency words provide a strong foundation for everyday conversations and continued language learning.

Students will complete a Pre-Assessment, Mid-Course Assessment, and Final Assessment to measure growth throughout the course.

Outside of class, students will strengthen their skills through independent practice using Duolingo and weekly vocabulary study.
