

Spanish:

Grades 7-8
Course Syllabus
2026-2027

Course Objectives:

- Expand knowledge of Spanish vocabulary
- Learn about Mexican culture, specifically about chocolate as the product of the Mayans
- Learn basic communication skills in Spanish, focusing on high frequency words: this is, he likes, he prefers, this, that, he says, what is it.

Course Components:

- We will use the Vamos Curriculum, unit 1, in class
- Students will learn additional verbs and phrases from the Ulat website

This course is a basic Spanish introduction. Since we meet only about once a month, learning progress may seem slow. Students are building a great foundation, however, and are beginning to acquire the language naturally. Weekly ulat assignments completed at home are highly recommended as preparation for high school Spanish.

Course Materials:

- Folder
- Optional: Buena Gente youtube videos
- theulat.com free newLat lessons 1-9
