Semester Two

CLASS: Preschool/Kindergarten Class

AGES: 3 - 5 yrs. old

CLASS TIME: Tuesdays from 9:00 am - 12:00 pm

INSTRUCTOR: Mrs. Ashley Alanis

DESCRIPTION: This 3-hour preschool/kindergarten class focuses on getting our youngest school-aged kids comfortable in a group setting. We will begin each day with 30 minutes of movement in our most open workshop space with fun whole-body activities. Throughout the next 2 ½ hours, children will work on letters of the week and basic math (numbers and counting), preparing for snack time, practicing manners, taking turns, and having conversations during snack. Every class, children will listen to a story or two and complete a seasonal or holiday craft or science experiment that ties into the lesson of the day. Children will also have an opportunity for free play, and they may choose to play with peers or independently during that time.

No knowledge base is expected and all levels will be accommodated.

CLASS INFO: The semester fee includes all regular supplies. There may be times where I ask you to bring in a specific item for your child to help with a craft (ex: mason jar). Parents will need to pack a snack and drink every Tuesday for snack time. Parents will also need to volunteer each semester to help in the classroom. The number of times per semester will be determined by how many children are enrolled. There will be a sign up sheet for classroom volunteers. Children must be toilet independent, or a parent will be asked to assist their child with bathroom needs.

CLASS SIZE: 4 min / 12 max

SEMESTER PRICE: $250 per semester (13 weeks)

PAYMENT INFO:

- **Payment Due Date:** Payment is due 1 week before the first day of classes.
- **Accepted Payment:** Zelle or cash.

REFUNDS & ABSENCES:

- No refunds for student absences.
- Pricing allows for one teacher's absence per semester. After that, if the teacher cannot find a substitute for the day, families will receive reimbursement for any additional missed classes, issued at the semester's end.

CLASS: RoboThink Robotics

AGES: 6-12 years old

CLASS TIME: Tuesdays from 10:00 am - 11:00 am

INSTRUCTOR: Mrs. Stephanie Noland

DESCRIPTION: Calling all aspiring engineers! Welcome to the exciting world of RoboThink, where the thrill of robotics meets the wonders of your student's imagination! Prepare to be amazed as students embark on an immersive program that lets them construct a wide collection of themed robots. From playful dogs with wagging tails to astonishing vehicles that can move on their own, this program will ignite their imaginations like never before! Along the way, participants will learn the essential skills of working with mainboards, DC motors, gears, and axles, unlocking the secrets of robotic creation. Join us on this wild adventure and watch your robotic creations come to life– no prior robotics experience necessary!

We will rotate through a variety of exciting robotic themes such as Amusement Park Tycoon, Expedition Mars, and Battle Robots, to name a few! Your student will explore a variety of robotic builds and techniques.

We take pictures and videos during class to capture the experience and memorialize your student's creation (shared via a private group Google drive folder). Parents will also be invited in the class for the last 10-15 minutes to see their student's robot in action!

Already registered for Fall and wondering if Winter/Spring semester makes sense too? Have no fear! We have hundreds of robots across more than a dozen themes, so even if they take it all year long they will experience fresh builds and challenges the entire time!

CLASS: Photography/Yearbook

AGES: 10+ years old

CLASS TIME: Tuesdays from 10:00 am - 11:00 am

INSTRUCTOR: Mrs. Annie Alvarez

DESCRIPTION: Capture the moments, tell the stories, and create memories that last! In this 13-week hands-on photography and yearbook class, students ages 10 and up will learn the fundamentals of photography while exploring the art of storytelling through pictures. Students will discover how to use a camera or smartphone to take meaningful, creative photos and learn how to turn those images into a yearbook that captures the spirit of our EverBloom homeschool community.

Throughout the course, students will explore photography techniques, composition, lighting, page layout, and basic graphic design. They will participate in fun photography challenges, practice capturing candid moments, and work together to design yearbook pages.
By the end of the 13 weeks, students will have created a collection of photographs and collaborated on a yearbook project that showcases their creativity, teamwork, and storytelling skills.

What students will learn:

- Basic camera operation, focus, and exposure
- Composition, perspective, lighting, and creative photography
- Portraits, candid photography, and action shots
- Yearbook planning, page design, and layout
- Photo selection, editing, and organizing images
- Teamwork, creativity, and project management
- Responsible photography, privacy, and photo permissions

CLASS INFO: No previous photography experience is required! Students may bring a digital camera, tablet, or smartphone with a camera. A computer or tablet for basic photo editing and page design is helpful. Alternative equipment can be arranged as needed. This class is designed for beginners and students who want to build on their existing skills. Students will leave with new creative skills, practical experience, and a yearbook they can be proud of.
