

## Wellness Policy

**Guiding Arrows Homeschool Co-op is committed to promoting a safe and healthy learning environment by implementing the following guidelines:**

- It is recommended that children and parents hand sanitize upon entering the building. After entering, wash hands often as needed with soap and water. If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol.
- If you or your children have any symptoms of COVID or of any communicable illness such as nasal congestion, fever (100.4F or higher), cough, vomiting, diarrhea, or rash, we ask that you not attend the group until you have recovered.
