

## **Youth Protection Training**

### **Crossroads Christian Connection**

This training is an important component of Crossroads Christian Connection's strategy to protect youth from abuse and other forms of mistreatment. Child abuse is a serious problem in American society. There are more than 3 million reported cases of child abuse each year, including a half million reported cases of child sexual abuse. Our first priority is to take steps to protect our members when they are participating in the coop and homeschooling programs we offer. This education may also make an impact on abuse in the community by increasing the awareness of our leaders, youth members, and their families. This training emphasizes youth protection policies to be used by all members. These policies protect the youth in the program, as well as our adult volunteers.

By signing below and providing your information, you, as a participant in Crossroads Christian Connection's activities, are stating that you have thoroughly read through the training materials presented and viewed the video, to cover youth protection and agree to the rules stated therein.
