Pickle Ball

Do you know how to play pickleball? If you don't, that's ok! Miss Angie is excited to guide you through the rules and techniques to help you become proficient in this sport. If you have a pickleball paddle, bring it along! We will end the semester with a friendly pickleball tournament.

10:45am-
11:30am

Woodburning

Try your hand at creating your own design using a wood burning tool and a piece of wood. This class will go through the steps to learn how to wood burn, proper tool handling, step by step techniques of simple designs, and even moving into more intricate patterns. Each student will have the opportunity to choose an end of semester project to take home. Maybe it will be a plaque, or maybe it will be a Christmas ornament!

OR

Car Models

Join Mr. Bill Dietrich in a construction adventure of building Model Cars. This class is an elective for 4th graders and up. You will be learning all the steps to how to put a plastic model car together to take it home at the end of the semester. This class will teach you how to be meticulous, develop your fine motor skills, patience, and discover a new love for all kinds of models that maybe you didn't know you had. Gals and guys are welcome to join!

15 min recess

11:45am-

Outdoor Challenges

You're invited to be outside all semester in this class. Maybe you will survive a hypothetical situation, or race another group to complete your scavenger hunt. This class will include fun activities like games, relays, fort building, and more! Maybe you'll get the chance to camouflage your group so your opponents can't find you.
