

LCHEA Enrichment Classes (2026-2027)

- All classes have a deposit of \$2 due immediately to hold your student's spot
- Unless otherwise noted, classes are a full year class, and the class fee covers all 25 weeks

Animals 101

Teacher: Stacie Ashworth

Age/grade: K4 – 2nd grade

Cost: Supply fee \$40; Class fee \$218.75

Description: We'll go on an adventure of learning about various animals. We will learn about their classifications, characteristics, diet, and habitat, We will learn about the animals through crafts, worksheets, games, and play.

ASL 1

Teacher: Tabitha Colburn

Age/grade: 8th – 12th grade

Cost: Supply fee \$30; Class fee \$281.25

Description: This class is designed to provide the student with a knowledge and understanding of American Sign Language (ASL), with an emphasis on fingerspelling, sentence structure, grammar, vocabulary, facial expressions, and awareness of the Deaf population, There will be homework, in class group projects, tests, and involvement with Deaf community. They are required to practice sign language at home. Students are encouraged to attend events where ASL is used and for them to mingle and communicate with Deaf people and other students of ASL. There will be no voice in the classroom. Parents will be required to supply: 3 ring binder 1 inch, loose-leaf papers and pencils or pens, as well as the book Master ASL! Level One and Master ASL! Fingerspelling, Numbers, and Glossing by Jason E. Zinza. Order from www.signmedia.com and get Master ASL! Level One Package (can be used again if taking ASL 2/3 after this class) They also can be found on Ebay, Amazon, and Facebook marketplace.

Astronomy (elementary)

Teacher: Marisa Bishop

Age/grade: 1st – 5th grade

Cost: Supply fee \$40; Class fee \$225

Description: This is a video-based course where students watch short, 3–5 minute videos at home to prepare for our time together. In class, we focus on reinforcing those concepts through worksheets, hands-on projects, crafts, and games. The curriculum explores the entire solar system and beyond, specifically designed to highlight God as the Creator.

Parents will need to supply the following materials: Binder, colored pencils, pencil and eraser, glue sticks

Builder's Squad (elementary)

Teacher: Joseph Rodgers

Age/grade: Kindergarten – 5th grade

Cost: Supply fee \$60 per semester; Class fee \$120 1st semester/\$180 2nd semester

Description: This hands-on shop class introduces children to woodworking in a fun, engaging, and supervised environment. Students will learn about common shop tools, what they are used for, and how to use them properly and safely while developing confidence and practical building skills.

Children will build wood projects designed to encourage creativity, problem-solving, patience, and pride in creating something with their own hands. Every student will also take home a surprise project they built themselves.

Classes are designed for different age groups so instruction and projects are matched to each child's stage of development. Younger students will focus on foundational skills, tool familiarity, and simple building techniques, while older students will explore more detailed instruction, expanded tool use, and a higher level of craftsmanship through age-appropriate projects. Each group will be challenged at the right level to help them learn, create, and succeed.

The program is divided into **two semesters**, allowing students to continue developing their skills throughout the school year. Families who enroll their student in **both semesters and complete the full-year program** will bring home some hand tools at the end of the year. This gives students the opportunity to continue practicing their building skills, creating projects, and growing their craftsmanship throughout the summer.

No prior experience is needed—just a willingness to learn, build, and have fun creating.

**Please note: this is a one semester class. If desired, you will need to sign up for each semester individually.*

Builder's Squad (middle school)

Teacher: Joseph Rodgers

Age/grade: 6th – 8th grade

Cost: Supply fee \$60 per semester; Class fee \$120 1st semester/\$180 2nd semester

Description: This hands-on shop class introduces children to woodworking in a fun, engaging, and supervised environment. Students will learn about common shop tools, what they are used for, and how to use them properly and safely while developing confidence and practical building skills.

Chemistry Lab

Teacher: Stacie Ashworth

Age/grade: 9th – 12th grade

Cost: Supply fee \$60; Class fee \$312.50

Description: This class will be using the Mr. Q's curriculum. Mr.Q's chemistry course is a 36 week course which we will condense into 25 weeks. It is a high school level course designed to prepare students to master chemistry principles and concepts. This class is the Lab portion of the overall grade. All reading and worksheets will be done at home. Students will need the textbook (co-op pricing available if we buy in bulk). The majority of the labs will be done in the kitchen using food.

High School English

Teacher: Gina Smith

Age/grade: 8th – 12th grade

Cost: Supply fee \$65; Class fee \$300

Description: This High School English class is open to students in 8th-12th grade and is designed as a flexible, mixed-grade high school English experience that develops strong reading, writing, and communication skills in a supportive environment. Students engage with a variety of literary genres, including fiction, nonfiction, poetry, and drama, while learning to think critically, analyze text, and express ideas clearly and effectively. Emphasis is placed on thoughtful discussion and writing for multiple purposes, including narrative, analytical, and argumentative compositions.

This is a full, credit-earning English class, and a grade will be provided. Instruction will be differentiated to meet students where they are academically while still maintaining shared learning goals.

The book list for the 2026-2027 school year is:

- Of Mice and Men
- The Invisible Man by HG Wells
- The Hiding Place by Corrie ten Boom
- The Glass Castle by Jeanette Walls
- Out of the Silent Planet by CS Lewis

These books will be purchased by the teacher, as part of the materials fee, and will be the student's to keep.

Students will need to bring a pencil and/or pen to class each week along with notebook paper, and a binder or folder to keep track of their work in.

As part of this class, students will need to have access to Google Classroom at home. Some assignments will be completed via Google Classroom, and grading will be tracked there as well.

Intro to Math

Teacher: Stacie Ashworth

Age/grade: K4 – 2nd grade

Cost: Supply fee \$30; Class fee \$218.75

Description: We will work on basic math concepts such as number recognition, counting, shapes/patterns and simple addition and subtraction. We will use manipulatives, games and worksheets throughout the class.

Learning with Legos

Teacher: Stacie Ashworth

Age/grade: K4 – 4th grade

Cost: Supply fee \$20; Class fee \$218.75

Description: Each week we will read a story and then the students will create something based on the story. They will create scenes, characters, etc. This is a hands on class filled with fun and opportunities to learn through play.

Let's Get Crafty (PreK – elementary)

Teacher: April Rodgers

Age/grade: K4 – 5th grade

Cost: Supply fee \$25; Class fee \$250

Description: This course will work with developing creativity, fine motor skills, along with self-expression through various art techniques and projects. We will work on primary colors for the elementary ages, hand-drawings/paintings to plaster molds. Art is all around us! We will discover what nature holds in store for our art adventures throughout the year.

The hands-on activities will encourage exploration of different materials and artistic concepts that will be suitable for each age group. My middle school and high school ages will dive in a bit more with learning about different artists and will take time to design their very own shirt.

All projects will go home with the students each week. Aside from the Middle School and High School t-shirts. They will be required to take their time in designing their images.

Students will be provided with their very own art portfolio for all drawings/paintings.

Let's Get Crafty (middle school)

Teacher: April Rodgers

Age/grade: 6th – 8th grade

Cost: Supply fee \$25; Class fee \$250

Preschool Skills

Teacher: Gina Smith

Age/grade: 3 y/o – 6 y/o

Cost: Supply fee \$30; Class fee \$225

Description: This preschool skills class is designed to introduce young learners to foundational academic and classroom skills through hands-on activities, play-based learning, music, movement, stories, and crafts. Students will practice early literacy and math concepts such as letters, sounds, numbers, colors, shapes, patterns, and fine motor skills while also building important social skills like listening, sharing, following directions, and participating in group activities. The class provides a fun, encouraging environment where children can grow in confidence, curiosity, and readiness for future learning.

This class is a drop-off class, but parents can stay if they prefer, as long as they have a background check completed within the last two years on file, and do not have unregistered children (outside of the class's age range) accompanying them. If you would like to stay, please register for the class, and the instructor will follow-up regarding the necessary background check.

Children must be potty-trained and able to use the bathroom without assistance, unless a parent will be accompanying them for the class.

STEM

Teacher: Stacie Ashworth

Age/grade: 2nd – 7th grade

Cost: Supply fee \$50; Class fee \$218.75

Description: STEM is a fun hands-on experiment class that explores Science, Technology, Engineering, and Math. Students will explore how these core concepts interact together in everyday life through individual, group, and class projects! Students will use the engineering design process to test and improve their designs to reach a final project that is effective!

Threads of Faith (learn to crochet)

Teacher: Lisset Clark

Age/grade: 8 y/o – 15 y/o

Cost: Supply fee \$10; Class fee \$250

Description: We will start with learning the names and working with basic stitches as we make our way into creating a “swatch”. Once these basic skills are grasped, we can move on to creating cup coasters, small, square napkins, etc. as we learn how to read and follow patterns. I will provide materials each class and I’ll also give each student a goody bag with crochet tools for them to keep. (for safety purposes I will not add items like scissors or needles inside these bags) but they will be used wisely during our class.

Tuttle Twins American History

Teacher: Marisa Bishop

Age/grade: 2nd – 5th grade

Cost: Supply fee \$40; Class fee \$225

Description: America’s History Volume 1 covers these events and more!

- The origins of freedom and limited government, from the Magna Carta to Enlightenment ideas
- Exploration, colonization, and the foundations of early American society
- The causes and key events of the American Revolution
- The Revolutionary War, major turning points, and the path to independence
- The creation of the Constitution and the Bill of Rights

We will have several activities and crafts to reinforce the lessons we learn.

Parents will need to supply the following materials: Binder, colored pencils, pencil and eraser, glue sticks, as well as Tuttle Twins, American History Volume 1

Tuttle Twins Kid Market Entrepreneurs Class

Teacher: Angela Hildebrandt

Age/grade: 4th – 8th grade

Cost: Supply fee \$0; Class fee \$300

Description: What we will learn:

- What is an entrepreneur?
- How to get started?
- Sell what people want.
- Build a business plan.
- Manage money.
- Buy Low. Sell High.
- Don’t eat your inventory.
- Be Prepared.
- Attracting attention & understanding competition.
- How to sell.
- Interacting with customers.

At the end of the class we will put everything we learned into action with hosting a young entrepreneur vendor event. We will invite customers to come, shop and critique our new entrepreneurs. (Details to be announced)

Parents will need to supply the following materials: Tuttle Twins Kids Market Curriculum (PDF download \$29.99) printed and placed in a 3 ring binder.

World Geography

Teacher: Stacie Ashworth

Age/grade: 9th – 12th grade

Cost: Supply fee \$20; Class fee \$312.50

Description: This is a high school level class that will be using the Notgrass Curriculum. We will explore different parts of the world that God created along with the various cultures. It will also discuss the human impact of our geography.

Parents will be required to supply the following books: Notgrass World Geography Part 1 and Part 2, The Gazetteer and Student Review Question Booklet.

You Be The Judge (middle school)

Teacher: Scott Smith

Age/grade: 6th – 8th grade

Cost: Supply fee \$10; Class fee \$250

Description: A unique introduction to the juvenile justice system, You Be the Judge is a class where students will preside over a variety of real-life cases.

They will meet several young people who commit crimes and are caught. Like a judge, readers learn each teen's background, the relevant facts, and the sentencing options available. After deciding on a sentence, they find out what really happened—and where each offender is today.

Along the way, students learn the real Judge's concerns about each case, reflect on probing questions, and discover that they can't jump to conclusions.

Thought-provoking and eye-opening, this class is for students who want to know more about the juvenile justice system and the laws that pertain to them and their peers.
