

Quick Reference for TC's COVID19 policy

- * We are a one day per week cooperative and many families do not take classes all day, so our experience out of the house is so much less than traditional 5-day school.*
- * TC does not have the internet capability or an IT department to live stream every class - a dual live platform for every class is unlikely.*
- * In the event we are forced to close in-person classes altogether, you will have the option to drop enrichment classes but NOT academic MS and HS classes.*
- * Being a smaller organization, we are more agile and flexible than larger schools and institutions.*
- * While we appreciate all our TC families, we do realize that the solutions might not suit everyone. Please make the best decision for the wellbeing of those in your family.*
- * If you choose to sit out the fall you can resume in the spring as a returning family instead of a new family.*
- * Although the board has issued a plan, it is dynamic and subject to change the closer we get to the start of school. We are not scheduled to begin until August 20th.*
- *The TC board plans to revisit our initial plan prior to the start of Fall semester and subsequently reissue the plan with any revisions*
