Littles

We realize that it can be a hardship for families to only bring their older children to Sovereign. To help facilitate a scholar experience for ages 10 and up, we have decided to offer activities for kids ages 9 and under. These activities can only happen if they are run by parent volunteers, and will only be made available to siblings of registered scholars. These are optional and families can participate in some or all of these organized class periods.

1. Morning Field Experience - Younger students will have the opportunity, as a group, to participate in field trips, outdoor activities, and classes with guest teachers. We will work with interested families to plan and facilitate the logistics for a year of good times. These are activities that will be best experienced as a group.
2. Lunch - Younger students are welcome to meet back at our building to have lunch with the school as a whole.
3. P.E. - Younger students will be able to take advantage of the full-size gym at United Lutheran Church to participate in 3rd hour P.E. class. Our parent volunteers will provide age appropriate activities for the younger crowd to get their sweat on!
4. Arts & Craft - The day will end with an open play arts and crafts time led by our parent volunteers.

First Hour

1. *Land of the Free* is an earth science/sustainability class that teaches students the power of being reconnected to the earth and learning principles of community and self-reliance. Students read several classics that take place in an agrarian setting so they see the value and growth that comes from hard work. The students plan a sustainability project which can be anything from planning and growing a garden to raising bees or poultry. This transition class starts at 9:15, which is 30 minutes later than the other classes.
2. *The Art of Botany* is a new class for the 2023/2024 school year. We are super excited to add this class to our science lab rotation. Students in this class will keep nature journals with a required number of entries, read botany classics, study the science of botany, participate in botanical drawing lessons, and much more. This class will be open to students ages 12+.
3. *Leadership 101* students will learn about the principles of leadership through the study of great leaders. Students will read books, write papers, give presentations, and learn about the ins and outs of committee work. They will also be responsible for planning all of the events for the school year. This class will be open to students ages 12+.

2nd Hour

1. *Ninja Scholar Skills* is a class that focuses on developing scholar skills in our transition students. Students will read, write, present, discuss books, ideas, and more. This class

provides an atmosphere that is safe for them to grow and develop in their skills and abilities.

2. We offer at least one language arts based American history class every year. For 2023/2024 we will offer *Authors of Liberty* that covers the American Revolution through the turn of the century.
3. *The Joy of Womanhood** is new this year. This class is geared towards what's important for girls and focuses on areas of physical, mental, and social health and well being. This is for students ages 10+.
4. *Unleashing Your Voice* is Speech & Debate class: speech - 1st semester, debate - 2nd semester. This class can be available for 12+ based on interest and enrollment.

3rd Hour

1. *Inner Genius* is a class that introduces our young students to the genius of the adult guest teachers. Guests are invited to come in every week and share their passion with our students.
2. *Stories From the Stage* - Our theater class is back by popular demand. Following the success of *The Women of Shakespeare* production from our 2022-2023 season, students will again have the opportunity to study all kinds of theater in the first semester. Second semester is actor's training and technical theater. There will be something for everyone from lights to sound to props to sets to acting on the big stage as we prepare for our spring production.
3. *Great Conversations* is a class for our scholars wishing to do what it takes to earn those 5000 hours of study for a successful scholar phase. Students will read and discuss a classic book weekly with their peers and through teacher led discussion. This class will focus on the life lessons found in classic literature, teach and encourage students to annotate in their books, and allow them to hone their discussion skills.

4th Hour

1. Physical Education - We enjoy having a full size gym at United Lutheran Church. We take full advantage by offering a rotation of sports, nutrition, health, and fitness challenges for our students.

*This class has strong Christian content. Students of all beliefs will be considered in planning which elements of the curriculum will be used and how. We respect all beliefs at Sovereign and allow everyone to share and participate based on their world-view and comfort level.
