## Parent Agreement

As a parent of a child in the Cornerstone program, I agree to the following:

- I understand that I will not be relinquishing my responsibility as the primary educator of my child(ren) for the courses taught at Cornerstone. I agree to oversee my child's work, encouraging them to do their best. Realizing that one class per week may not be enough instruction for my child(ren), I will make myself available to give the assistance and instruction they require to successfully complete their assignments.
- I understand that I am expected to notify the teacher if my child(ren) are having difficulties with their assignments. If I am concerned with the amount of work assigned or question the necessity of an assignment, I will first discuss with the teacher rather than alter the assignment.
- I agree that I will NOT allow my student(s) to use the teacher guide to copy or work out answers. I understand that copying from the teacher's guides and fellow students is a form of cheating and could result in removal from the class or expulsion from Cornerstone.
- I will read all the information I receive from the Cornerstone program, checking the family folder and e-mail regularly.
- I will fulfill all of my volunteer requirements. I will arrive no later than 10 minutes before my scheduled service time. I will find a substitute if I will be absent.
- I bring to Cornerstone a servant's heart, realizing that I may be needed (or called upon) to help in an area that is not my scheduled service requirement. I will make every effort to help during these times.
- I understand that if my student's assignments are frequently missing from his or her classes, frequent tardiness or absence causes a disruption, or other disruptive behavior occurs, I will receive a written warning letter from the Board of Directors. If the behavior fails to change after that written warning, I understand that my student will not be allowed to return to Cornerstone for the remainder of the school year.
- I understand that the Cornerstone program is not an oversight program and that I am responsible for reporting directly to my oversight program.
- I have read and understand the financial information on the financial information form and will comply with all the dates stated thereon except when special arrangements are made with the Board of Directors.
