You did not want to be Russian during WW2!! Storm troopers are just not in Star Wars, of course they are different in WW2. What has art to do with WW2? Was Hitler really elected? "There's a secret that real writers know that wannabe writers don't, and the secret is this: It's not the writing part that is hard. What's hard is sitting down to write." Steven Pressfield. Ever have a bunch of ideas in your head for short stories, novels, spoken words, poetry, lyrics, etc. but never have time to sit down and write them out? Ever wish, you had a group of like-minded writers, to talk out your ideas and get advice? This class is to purposefully set time in each week to just write. Throughout the semester, we will help each other, by giving constructive criticism, and editing notes, if desired. A composition book will be provided, please bring something to write with, we will have extra writing tools, just in case.

Yearbook: Our Friday Family

So if you were intrigued, excited, or just plain curious about what we did in Yearbook last semester, now is your chance to get an inside look! Join us for the spring as we continue building our crazy yearbook and finalize what we've already put in place. Here are some details: The yearbook is already in progress. So you will get a first hand look at what HAS been done and will get a chance to contribute to what WILL be done! If you are a writer, photographer, designer, etc, we would love to have you!

There will be a small amount of outside class work on Fridays. Also, we will have at least 1 extended library session in which we all work together on the project. Date TBD based on participants. You do not need to have equipment for class or yearbook experience - but you do need to be willing to learn and practice with the online program. If you don't have access to a home computer on a regular basis, learning could be difficult. Before you sign up for the class, see if you can arrange access.

The yearbook is holding a big fundraiser on March 4th. We will be spending some time and effort planning, organizing, and implementing this effort. You do not have to attend the fundraiser (a dance) but you do need to be willing to work on it with us.

We will work hard and have fun. We will learn and grow. We will be disciplined and energized. We will become a team and capture the memories of TGIF for the 2016-17 school year! Our fall staff was phenomenal - no doubt you know at least one of the members! If you have any questions about the class - don't hesitate to ask!
