Kindergarten/1st Grade Description/Expectations:

The combined kindergarten and first grade class at Young PIONEERS Co-op is an educational classroom opportunity for home school students. The teachers will provide an atmosphere conducive for learning and group activities that will supplement home education. There will be no homework assignments give.

K/1st students are expected to respectfully listen and participate in classroom activities. Students should be able to appropriately participate in 15-minute interval rotations of listening, fine motor, and gross motor activities. Students should know (or be consistently practicing) how to write the letters of the alphabet and numbers. Students should know how to use scissors.

To meet our educational goals as a co-op, it may be necessary to adjust a student's class level in order to find the appropriate level to meet their needs.
