Preschool Description/Expectations:

The preschool class at PIONEERS Co-op is designed for potty-trained children, ages 3 and up, who have not yet mastered their letters and sounds and are receptive to begin this exciting new learning adventure. Children in this class should be ready for a slightly more structured learning environment outside of play. While much of the class is devoted to hands on play and sensory learning, the child should be able to participate in 10-minute learning intervals scheduled throughout the day with ample play breaks in between.

Safety is a priority. A child in this class does need to be able to follow directions in order to keep himself/herself and others safe while under our care.

In this class, we will work our way through the alphabet, learning each letter and its sound. In addition to learning our letters and sounds, we will also work on other preschool skills such as cutting, gluing, stringing, lacing, painting etc...

It would be our hope that the student would be able to join us respectfully during circle time, craft, music, and games, but we understand some children are not ready to do more than play at this age. To that point, we will work with the family to discuss where the child's needs will be best met.
