## Young PIONEERS GENERAL SCIENCE (Grades 2–3 and 4–5)

**Tutor:** Mrs. Johannah Murdock  
706-755-5255  
[johannahmurdock@gmail.com](mailto:johannahmurdock@gmail.com)

**Textbook:** None required

**Supplies:** 2-pocket folder or a 1-inch binder, pencils

**Recommended Supplemental Resources:** (All required resources will be distributed by the teacher in class and no textbook is required. However, if you would like to follow along with what is being covered in class, the following resources are recommended):

- ***Exploring Creation with Earth Science*** (Apologia's *Young Explorer Series*)
- ***Exploring Creation with Botany 2ND EDITION:*** (Apologia's *Young Explorer Series*)

**Class Description/Expectations:** I plan to use both books throughout the year to make the most that we can out of the botany book when the seasons work best. It is my hope to be able to tie together both of these curriculums to show students how intricately God designed our home planet: from Earth's perfect place in the cosmos down to the microscopic fungi.

*O Lord, how manifold are Your works! In wisdom You have made them all. The earth is full of Your possessions— Ps 104:24 NKJV*

**Please note:** In class, we will have a lot of hands-on activities and challenges that will encourage your child to work together with others and to grow to love our world around us!

There is no weekly homework for this class. It is encouraged, but not required that families follow along at home with the reading from the Apologia textbooks. I will be sending out a quarterly schedule that shows what we are doing in class and what to read to follow along.

Please feel free to text or email me with any questions throughout the year. I'm excited to meet everyone and begin this new journey over the next school year.
