Great workshops for both ND and MN families!

Workshops held simultaneously, choose the one that best fits your needs.

Firm Foundations 1-4 pm

Presented by Kris Cox , MÂCHÉ Representative and Educational Consultant

Homeschooling is a great privilege and blessing as well as a big responsibility. There's a lot to learn about homeschooling, with every year being a new adventure! This informative 3-hour workshop is meant to help you build a firm foundation for your homeschool. We'll discuss many important aspects of homeschooling such as current MN and ND homeschool laws, teaching tips, choosing curriculum, scheduling, planning, avoiding burnout, dealing with resistant learners, understanding learning styles, and ideas for developing a love for learning in your children. A great workshop for the beginning homeschooler but also perfect for the homeschooling parent who needs renewed vision and direction or guidance in any of the areas listed here. (Please note: Childcare is not provided.)

High School and Beyond 1-4 pm

Presented by Cheri Frame, MÂCHÉ Representative and Educational Consultant

Homeschooling through high school might seem intimidating, but be encouraged! These can be the most enjoyable and influential years you have with your teens. This seminar will help you develop a comprehensive 7-12th grade plan. Starting with a strong academic foundation of high school courses and credits, you will learn how to individualize your students' education based on their graduation goals. You will also learn how to create a transcript, include earning college credit in high school with Dual Enrollment and CLEP, and explore the guiding steps for career exploration. Parents and students alike will gain confidence and be encouraged to homeschool through high school as they see the big picture unfold and create a vision for these extraordinary years. **Teens are encouraged to attend with you at no charge!**

*Presented in cooperation with
REACH Homeschool Support Group*
