The Jackson Area Career Center can open the door to your future! Whether you plan on attending college, starting your career or both – this may be the place for you!

Many homeschooling families find that the Career Center can be an Extension of their High School Program; At the Career Center students will earn a jump-start on their future, no matter the path they choose. While many students graduate ready to work, most of the Career Center Students attend college or continue on a postsecondary institution. Best of all, Career Center classes are absolutely FREE!

Please refer to the attachments for Tour Day Information and a list of the Programs & Potential Careers offered through JACC.
