

## **Storytime and Stretching Opener**

As everyone arrives, we will be sitting together reading a story. When you come in, please:

1. Send your children to sit with us and listen to the story.
2. Meanwhile, you can get settled, check out the job board and meet with the instructors to help set-up. If your younger child needs you to stay with them during storytime, we understand! But, if you are able to help during this time, please do.

After the story, the students (and toddlers, if they'd like) will do about 10 minutes of stretches together. Please have your students wear comfortable clothes. This will be a light hearted way to break the ice and wake up our bodies and minds.

After stretches we'll move onto the classes!

## **General Co-op**

In addition to Station A & B, we will have a few other stations available to the students: STEAM station, reading area, and (sometimes) a listening station.

In addition to participating in the Stations and enjoying the quiet activities in the reading area, toddlers can play indoor bowling. Please have your toddler bring a favorite ball for knocking over the pins.

Each student will need a pair of headphones at each meeting to use at the listening station.

Please bring a bag with your child(ren)'s name on it (such as a paper grocery bag). We will put these in a central location so that headphones, projects, and other items can stay with their owners each week.
