Good Afternoon PACE Families,

We are writing to address the concerns arising from the recent outbreak of the 2019 corona virus (COVID-19) to keep the PACE community safe and healthy. We want to assure you that we're closely monitoring guidance provided by the U.S. Centers for Disease Control (CDC) and local health officials in Dade County. To be clear, there are NO cases in or around our community.

As a reminder, frequent hand washing is essential. Hand sanitizers should be used in conjunction with handwashing not as a replacement. If you or your child feel sick, for the safety of all please stay home. Below you will find a few steps you can take to protect yourself:

1. Avoid close contact with people who are sick.
2. Avoid touching your eyes, nose, and mouth.
3. Stay home when you are sick.
4. Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
5. Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.
6. Wash your hands often with soap and water for at least 20 seconds, especially after using the restroom; before eating; and after blowing your nose, coughing, or sneezing. If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60 percent alcohol.

We understand the concern that many people feel regarding the possible spread of COVID-19. Again, please rest assured that this is simply a proactive email and that PACE has not experienced any cases or reports to date. We will continue to monitor developments throughout this situation and keep you informed of situations that could impact the health of our families.

Please check out the World Health Organization website for the latest updates on the virus. It is important that we all stay informed and take preventive measures.
