

PACE update on Point for Chemistry Class

P.A.C.E. of Miami

Mon, Mar 16, 3:28
PM

Dear Chemistry parents,

We are so blessed by a community of teachers that love our children and want to keep their promises to them! We want to thank Mrs. Sylvana for her willingness to open her home for the kids to collect their prizes for the hard work they put in.

After speaking with Mrs. Sylvana and discussing the current state of things we have all come to the decision that waiting at least two weeks or until we receive new directives from the CDC would be the best thing for everyone. The kids will still be able to get their prizes but at a later date.

Mrs. Sylvana and a general PACE email will be send out with the new time for the kids to go to the store once we get an update from the CDC.

Thank you,

The PACE Board.
