

World Geography, History and Culture

This class will involve a lot of research using the CIA World Factbook on-line (<https://www.cia.gov/the-world-factbook/>), and also printing out various articles periodically.

Most importantly, **students will need to be able to print maps from this website as a central part of classwork:**

<https://www.printableworldmap.net/>

While not required, a quality world atlas would be beneficial for students to have on hand and is highly recommended.

This class consists of in-class note taking, discussion and at-home on-line research will also involve more note taking.

Students will need a binder with dividers, as well.

No other texts or materials are needed beyond the ability to print out various documents which will be essential to the course content.
