

High School Expectation for Students

- Each class has enough material offered that it satisfies 75/150 hours to equal 1/2 to 1 credit for the year, in which a letter grade will be given at the end of the year.
- If the class is not designed for a student to receive 1/2 or 1 credit (75/150 hours) then it becomes a Pass/Fail class.
- Teacher will communicate a grading plan for that class at the beginning of the year.
- Teacher will not allow student to be disruptive in behavior (this is any kind of behavior that is limiting/stopping academic success for student or fellow students in class) without notifying parent after two weeks of offense. The two weeks gives the teacher/student time to correct behavior.
- Teacher will not allow student to get behind more than 2 weeks without parent contact.
- Teacher will give encouraging and constructive feedback on all completed homework so students may effectively build on material learned throughout the year.
- A student may be asked to drop a high school class if continued behavior and/or late school work causes disruption and hardship for class/teacher.
- Student and parent will respect and adhere to the agreement they accepted for teacher's plan and expectations for the high school class in which they are enrolled.

Submitted High School Contracts are a part of the Member Responsibilities Agreement which families submit at registration. A sample of the High School Expectations is available in the Classroom Resource Binder at the Welcome Table. Please see a Board member if you have any questions.
